Hey Jeff!

Thank you so much for asking how things have progressed, and I am happy to say we are really pleased with the results. It has been nearly six months now since your magnetic conditioner arrived and the results are outstanding. The soil is "softer" now and you can drive a penetrometer in easy now. And the alfalfa has is responding. Less phytophthera and more hay per acre. I'll try to get you some photos soon.

Thanks again,

D.
